

GDPR AS CODE

What is it ?

Although 69% of Europeans are Aware of the GDPR, few Organisations have actually Implemented it, because of its complexity

* Communication from the Commission to the European Parliament and the Council, 24 June 2020

WHICH WE CAN SUMMARISE IN

1 FUNDAMENTAL PRINCIPLE

EXPLICIT AND POSITIVE CONSENT TO THE USE OF THE PERSONAL DATA

AND 6 REQUIREMENTS

The accuracy of the data

The right to limit processing, to object, to be forgotten

Privacy by design et by default

Controlling the risks of impact on privacy

The ability to demonstrate compliance with the regulation

The ability of the DPO to control risk

LET'S TRANSLATE THESE REQUIREMENTS IN APPLIED TOOLS...

Data quality engine

Data explorer with compliance justifications (purpose, legality, origin)

Management and traceability of consents

Algorithms to optimise retention of time and anonymisation

Data encryption and access security

Automated GDPR impact Analysis by individual

Register of treatments with activity history by individual

Compliance management interface for the DPO

... LET'S INTEGRATE THEM

AND YOUR DATA PLATFORMS ARE "GDPR AS CODE"
